

Armeen Ali Soomro

Computer Systems Engineering Student (CSE '29) · Java Developer · Frontend & AI Enthusiast

Hyderabad, Sindh, Pakistan | [LinkedIn: armeen-ali-37886239a](#) | [GitHub: ArmeenAli54](#) | [Portfolio: armeenali54.github.io](#)

SUMMARY

Second-year Computer Systems Engineering student at MUET (batch of 2029) and aspiring software developer from Hyderabad, Pakistan. Passionate about Java development, modern front-end engineering and Generative AI. Completed two virtual Java internships and earned 23 certifications in AI, machine learning, data analytics and cybersecurity — while building hands-on projects from a Java Swing banking system to modern, responsive web applications.

EDUCATION

B.E. Computer Systems Engineering — Mehran University of Engineering & Technology (MUET) 2025 — Present · Jamshoro

Second-year student, batch of 2029. Focus on programming, computer systems and applied software development.

EXPERIENCE

Frontend Development Intern — Progree · Remote Jul 2026 — Present

Built a Bulk Order Pricing Calculator with live receipt, volume discount tiers, regional sales tax and promo codes; published as a GitHub Pages demo.

Java Programming Intern — DecodeLabs · Virtual Jun — Jul 2026

Developed DecodeBank Pakistan, a Java Swing banking management system, plus a number-guessing game and student grade calculator. Awarded Certificate of Completion and Letter of Recommendation.

Content Writer — She's Beyond · Remote Jul — Sep 2026

Selected as Content Writer for the July–September 2026 term, creating content that connects, inspires and creates positive impact.

Java Programming Intern — CodeAlpha · Virtual May — Jun 2026

Built a Hotel Reservation Management System and Student Grade Tracker, strengthening OOP design and problem-solving skills.

PROJECTS

DecodeBank Pakistan Java Desktop

- GUI-based banking management system (Java Swing): login authentication, deposits, withdrawals, transfers, balances and transaction history.

Hotel Reservation Management System Java Desktop

- Room reservation manager built during the CodeAlpha internship using core OOP principles.

Bulk Order Pricing Calculator Web App

- Live order-pricing estimator with receipt-style summary, volume discount tiers, regional sales tax, promo codes and multi-currency display.

SKILLS

Programming: Java, JavaScript, HTML5, CSS3, TypeScript, Python (beginner)

Frameworks: React, Next.js 14, Java Swing, Three.js, React Three Fiber, D3.js, Tailwind CSS, Framer Motion

Tools: Git & GitHub, VS Code, npm, Windows

Web: Responsive design, CSS animations, DOM manipulation, accessibility, GitHub Pages

AI & Data: Generative AI, Prompt Engineering, Machine Learning (beginner), Data Analytics, Google Cloud AI

CERTIFICATIONS (23)

- IBM — AI Fundamentals: Language & Vision in AI
- IBM — AI Fundamentals: Foundations for AI
- IBM — AI in the Real World
- Microsoft — Explore Generative AI
- AWS — Foundations of Prompt Engineering
- Cisco — Introduction to Modern AI
- Cisco — Introduction to Cybersecurity
- Simplilearn — Generative AI for Beginners
- Simplilearn — Machine Learning using Python
- Sololearn — Introduction to Python
- Sololearn — Data Analytics with AI
- Sololearn — Machine Learning for Beginners
- Anthropic — AI Fluency: AI Capabilities & Limitations
- HP LIFE — AI for Business Professionals
- UniAthena — Basics of Data Science
- Udacity — Innovating with Google Cloud AI
- Udacity — Intro to Generative AI with Google Cloud
- Saylor University — Fundamentals of Machine Learning
- Deloitte × Forage — Data Analytics Job Simulation
- Huawei × MUET — Cloud Computing & AI Awareness Seminar
- DecodeLabs — Java Programming Virtual Internship
- CodeAlpha — Java Programming Internship
- AIC ACM — Volunteer, Orientation & Workshop

COMMUNITY

AIC ACM Student Chapter — MUET · Member & Volunteer

2026

Official member of MUET's ACM-affiliated tech community. Volunteered at the Cybersecurity & Ethical Hacking Awareness Workshop and campus orientation events.
